1975 ANNUAL INDEX

Here is a topical listing of editorial items that appeared in the six issues (Feb/Mar 1975 through Dec/Jan 1976) that comprise Volume 5 of *Microwave Systems News*.

Abbreviations: (TA)—Technical Article, (PF)—Product Feature, (SR)—Staff Report, (DM)—Data Matrix, (MR)—Microwave Review

AIR TRAFFIC CONTROL (ATC)

- Aerosat or Aeroslump? (TA); *Aug/Sept; p. 93.*
- ATC Transponders—Their Vital Role In Assuring Safety And Speed In Air Travel (TA); *April/May; p. 43.*
- MADGE—A Portable Aid For Aircraft Landing (TA); *April/May; p. 16A.*
- Mid-Air Collision Prevention: The Evolution Of A Practical Multifunction System (TA); *April/May; p. 25.*
- TACAN—Its Evolution As An Aid To Military Aircraft Navigation (TA); *April/May; p. 73.*

AMPLIFIERS

- FET's For Ancom (MR); *Feb/Mar; p. 11.*
- High Power Ring-Loop TWTs For Advanced Radar (TA); *Feb/Mar; p. 47.*
- The House That Power Built (MR); *Aug/Sept; p. 20.*
- Internally-Matched Transistors Reduce Telecom Power Amplifier Costs (TA); *June/July; p. 71.*
- 1 MHz To 1.5 GHz Thin-Film Amplifier Features Three Stages In A TO-3 Can (TA); *June/July; p. 46.*
- Progress In Helix TWTs For Advanced Radar (TA); *Feb/Mar; p. 69.*
- Shoppers-Guide—Low Cost Earth Terminal Hardware (DM); *June/July; p. 44.*
- Solid State Power Amplifiers For Airborne DME Applications (TA); *April/May; p. 17.*
- Solid-State Power Amplifiers For S-Band Phased Array Radar (TA); *Feb/Mar; p. 77.*

AVIONICS

- AN/ARC-164: The New USAF Standard UHF Radio For The F-16 (TA); *April/May; p. 76.*
- ATC Transponders—Their Vital Role In Assuring Safety And Speed In Air Travel (TA); *April/May; p. 43.*
- Direct-Coupled Detector Log Amplifier For Crystal Video Processing (TA); *April/May; p. 85.*
- Electronic Warfare: System Design Behind The Power Curve (TA); *April/May; p. 37.*
- HARM On Target (MR); *April/May; p. 10.*
- MADGE—A Portable Aid For Aircraft Landing (TA); *April/May; p. 16A.*
- Mid-Air Collision Prevention: The Evolution Of A Practical Multifunction System (TA); *April/May; p. 25.*
- Solid State Power Amplifiers For Airborne DME Applications (TA); *April/May; p. 17.*
- TACAN—Its Evolution As An Aid To Military Aircraft Navigation (TA); *April/May; p. 73.*
- YIG-Tuned Bulk GaAs Oscillators Come Of Age For Airborne Systems (TA); *April/May; p. 47.*

COMMUNICATIONS

- Aerosat Or Aeroslump? (TA); *Aug/Sept; p. 93.*
- AN/ARC-164: The New USAF Standard UHF Radio For The F-16 (TA); *April/May; p. 76.*
- And All The Ships At Sea (MR); *June/July; p. 12.*
- A New 2700-Channel Radio Relay System (TA); *Aug/Sept; p. 31.*
- A Receiver For OTS Propagation Studies (TA); *Oct/Nov; p. 64B.*
- Bigness Is Not Badness (MR); *Feb/Mar; p. 19.*
- Cost-Effective Standby In Satellite Earth Stations (TA); *June/July; p. 85.*
- Distortion In High Capacity Microwave Radio Systems (TA); *Aug/Sept; p. 39.*
- 50 Years For Bell Labs (MR); *Feb/Mar; p. 13.*
- First Pay-TV Terminal Goes Operational (MR); *Oct/Nov; p. 9.*
- The $4 Billion+ Market (MR); *Oct/Nov; p. 13.*
- Hughes, ITT And Philco-Ford Named To Build Indonesian Telecom System (MR); *April/May; p. 9.*
- Internally-Matched Transistors Reduce Telecom Power Amplifier Costs (TA); *June/July; p. 71.*
- Microwave Components For Earth Terminals—High Power Capability At Low Cost(TA); *June/July; p. 59.*
- Microwave Mini-Links Make Live News/Sports Telecast a Reality (TA); *Aug/Sept; p. 23.*
- Millimetric Waveguide System Developed For Communications in Italy (TA); *Aug/Sept; p. 51.*
- Next Stop: Satellite Muzak (MR); *Aug/Sept; p. 21.*
- Point-To-Point Communciations Systems Step Up Usage Of Automatic Microwave Counters (TA); *June/July; p. 63.*
- Radar Remoting By Microwave Radio (TA); *Aug/Sept; p. 57.*
- STAC—A New Concept For Low Cost Channel Unit Equipment (TA); *June/July; p. 81.*
- Staff Report: U.K. Digital Microwave Relay Systems Above 10 GHz (SR); *Aug/Sept; p. 48.*
- State Of Alaska Selects Suppliers For Small Earth Terminal Equipment (MR); *June/July; p. 11.*
- Status Report: The Low-Cost Low-Capacity Earth Terminal (SR); *June/July; p. 19.*
- Tenth Anniversary Of Space Communications (MR); *June/July; p. 12.*

COMPONENTS

- An 18-GHz Toggle Switch (PF); *Dec/Jan; p. 89.*
- Coupler Directivity vs. Measurement Error (TA); *Dec/Jan; p. 83.*
- Direct-Coupled Detector Log Amplifier For Crystal Video Processing (TA); *April/May; p. 85.*
- Microwave Components For Earth Terminals—High Power Capability At Low Cost (TA); *June/July; p. 59.*
- Microwave Ferrite Components Highlighted At Intermag (SR); *June/July; p. 50A.*
- Multidiode Approach Offers Improved Detector Performance (TA); *Aug/Sept; p. 101.*
- Shoppers Guide—Low Cost Earth Terminal Hardware (DM); *June/July; p. 44.*
- Specifying Coaxial RF Transmission Lines For Today's Airborne ECM Systems (TA); *Oct/Nov; p. 47.*

ELECTRONIC WARFARE

- An Experimental TDMA Network For AWACS Interoperability Demonstrations: Part I(TA); *Dec/Jan; p. 73.*
- ATI Awarded ALF-45 Pact(MR); *April/May; p. 9.*
- Belgium: Best Spec (MR); *Aug/Sept; p. 11.*

1975 ANNUAL INDEX

• The Channelized Receiving System (TA); *Dec/Jan; p. 63.*
• Direct-Coupled Detector Log Amplifier For Crystal Video Processing (TA); *April/May; p. 85.*
• Dynamic Range Considerations In Electronic Countermeasures Receivers (TA); *Dec/Jan; p. 53.*
• ECM vs. Radar: A Lethal Scenario (SR); *Dec/Jan; p. 31.*
• Electronic Warfare: A Soviet View (SR); *Dec/Jan; p. 28.*
• Electronic Warfare: System Design Behind The Power Curve (TA); *April/May; p. 37.*
• How Advance Technology Gets Around Export Controls (SR); *Dec/Jan; p. 19.*

INTERNATIONAL
• Belgium: Best Spec (MR); *Aug/Sept; p. 11.*
• Does F-16 Mean The End Of European Aerospace? (MR); *Aug/Sept; p. 11.*
• Ericsson At A Glance (MR); *Aug/Sept; p. 14.*
• How Advance Technology Gets Around Export Controls (SR); *Dec/Jan; p. 19.*
• Hughes, ITT And Philco-Ford Named To Build Indonesian Telecom System (MR); *April/May; p. 9.*
• Japanese Microwave Study Depicts Rapid Growth (MR); *April/May; p. 9.*
• Satory Cinq (MR); *Aug/Sept; p. 11.*

MICROWAVE BUSINESS
• Addington Labs Acquires PEL (MR); *Feb/Mar; p. 14.*
• Does F-16 Mean The End Of European Aerospace? (MR); *Aug/Sept; p. 11.*
• How Advanced Technology Gets Around Export Controls (SR); *Dec/Jan; p. 19.*
• Hughes, ITT And Philco-Ford Named To Build Indonesian Telecom System (MR); *April/May; p. 9.*
• Japanese Microwave Study Depicts Rapid Growth (MR); *April/May; p. 9.*
• LARS Microwave: New Company (MR); *April/May; p. 12.*
• Narda Buys Ancom (MR); *Dec/Jan; p. 11.*
• Omni Spectra Analysis (MR); *June/July; p. 11.*
• S-A Sells Antenna Line To Cablewave Systems (MR); *April/May; p. 12.*
• State of Alaska Selects Suppliers For Small Earth Terminal Equipment (MR); *June/July; p. 11.*
• Westinghouse Awarded F-16 Radar (MR); *Dec/Jan; p. 11.*
• Yankees Going Home (MR); *Aug/Sept; p. 12.*

RADAR
• The AN/TPQ-39 (V) Digital Instrumentation Radar (TA); *Feb/Mar; p. 42.*
• Frequency Diversity In Radar Systems (TA); *Feb/Mar; p. 38.*
• Guest Editorial: Radar Technology And Systems Needs—Hitching Cart To Horse (TA); *Feb/Mar; p. 93.*
• Helicopter-Borne Radar Aids Canadian Search-And-Rescue Missions (PF); *Feb/Mar; p. 53.*
• High Power Ring-Loop TWTs For Advanced Radar (TA); *Feb/Mar; p. 47.*
• Microwave Tubes For Radars Of The 1980's (TA); *Feb/Mar; p. 87.*
• Military Airborne Radars By AN Designation (DM); *Feb/Mar; p. 21.*
• Progress In Helix TWTs For Radar Systems(TA); *Feb/Mar; p. 69.*
• Radar Remoting By Microwave Radio (TA); *Aug/Sept; p. 57.*
• Radar System Noise Figure Monitoring (PF); *Feb/Mar; p. 97.*
• Radar Systems For Air Traffic Control (TA); *Feb/Mar; p. 56B.*
• Recent Advances In Radar (TA); *Feb/Mar; p. 50.*
• Semi-Automatic Radar Tester (TA); *Feb/Mar; p. 98.*
• Solid-State Power Amplifiers For S-Band Phased Array Radar (TA); *Feb/Mar; p. 77.*
• Westinghouse Awarded F-16 Radar (MR); *Dec/Jan; p. 11.*

SEMICONDUCTORS & MIC's
• Contemporary Microwave Packaging Techniques (TA); *Oct/Nov; p. 75.*
• GE Lets CATT Out Of The Bag (MR); *Oct/Nov; p. 14.*
• Gunn-Effect Technology: Part I (TA); *April/May; p. 67.*
• Gunn-Effect Technology: Part II (TA); *Aug/Sept; p. 83.*
• Gunn-Effect Technology: Part III (TA); *Oct/Nov; p. 57.*
• Integrated Circuit 18–40 GHz Receiver (TA); *Oct/Nov; p. 33.*
• Microwave Packaging—A 1975 Overview (SR-TA); *Oct/Nov; p. 17.*
• Microwave VCO Packages For EW Systems (TA); *Oct/Nov; p. 25.*
• Multi-Layered MIC's (TA); *Oct/Nov; p. 67.*
• Packaging Trends In Navy EW (TA); *Oct/Nov; p. 70.*
• Preselected AUTOTRAK EHF Superhets (TA); *Oct/Nov; p. 41.*

SOURCES
• Frequency Pulling: What Happens To Oscillator Stability With Load Variations? (TA); *June/July; p. 7.*
• Microwave VCO Packages For EW Systems (TA); *Oct/Nov; p. 25.*
• YIG-Tuned Bulk GaAs Oscillators Come Of Age For Airborne Systems (TA); *April/May; p. 47.*

TERMINALS
• Cost-Effective Standby In Satellite Earth Stations (TA); *June/July; p. 85.*
• First Pay-TV Terminal Goes Operational (MR); *Oct/Nov; p. 9.*
• Microwave Components For Earth Terminals—High Power Capability At Low Cost (TA); *June/July p. 59.*
• Shoppers Guide—Low Cost Earth Terminal Hardware (DM); *June/July; p. 44.*
• STAC—A New Concept For Low Cost Channel Unit Equipment (TA); *June/July; p. 81.*
• Status Report: The Low-Cost Capacity Earth Terminal (SR); *June/July; p. 19.*

TEST & MEASUREMENT
• Binary Step Attenuators—DC To 18 GHz (PF); *Feb/Mar; p. 103.*
• Coupler Directivity vs. Measurement Errors (TA); *Dec/Jan; p. 83.*
• Distortion In High Capacity Microwave Radio Systems (TA); *Aug/Sept; p. 39.*
• 18-GHz Microwave Frequency Counter (PF); *Feb/Mar; p. 114.*
• Laboratory Performance In A Ruggedized RF Signal Generator (PF); *April/May; p. 35.*
• New Network Analyzer Employs SAW Chirp Filters (TA); *Aug/Sept; p. 62.*
• Point-To-Point Communications Systems Step Up Usage Of Automatic Microwave Counters (TA); *June/July; p. 63.*
• Radar System Noise Figure Monitoring (PF); *Feb/Mar; p. 97.*
• Semi-Automatic Radar Tester (TA); *Feb/Mar; p. 98.*

TUBES
• High Power Ring-Loop TWTs For Advanced Radar (TA); *Feb/Mar; p. 47.*
• Microwave Tubes For Radars Of The 1980's (TA); *Feb/Mar; p. 87.*
• Postulating An Airborne ECM Threat (TA); *Dec/Jan; p. 42.*
• Progress In Helix TWTs For Radar Systems (TA); *Feb/Mar; p. 69.*
